

PACSafe™ Configurable Safety Controllers IPI

IC225SXE262/IC225SXF262/IC225SSE262/IC225SSF262

⚠ WARNING

Warning notices are used in this publication to emphasize that hazardous voltages, currents, temperatures, or other conditions that could cause personal injury exist in this equipment or may be associated with its use.

In situations where inattention could cause either personal injury or damage to equipment, a Warning notice is used.

⚠ CAUTION

Caution notices are used where equipment might be damaged if care is not taken.

Note: Notes merely call attention to information that is especially significant to understanding and operating the equipment.

These instructions do not purport to cover all details or variations in equipment, nor to provide for every possible contingency to be met during installation, operation, and maintenance. The information is supplied for informational purposes only, and Emerson makes no warranty as to the accuracy of the information included herein. Changes, modifications, and/or improvements to equipment and specifications are made periodically and these changes may or may not be reflected herein. It is understood that Emerson may make changes, modifications, or improvements to the equipment referenced herein or to the document itself at any time. This document is intended for trained personnel familiar with the Emerson products referenced herein.

Emerson may have patents or pending patent applications covering subject matter in this document. The furnishing of this document does not provide any license whatsoever to any of these patents.

Emerson provides the following document and the information included therein as-is and without warranty of any kind, expressed or implied, including but not limited to any implied statutory warranty of merchantability or fitness for particular purpose.

Models

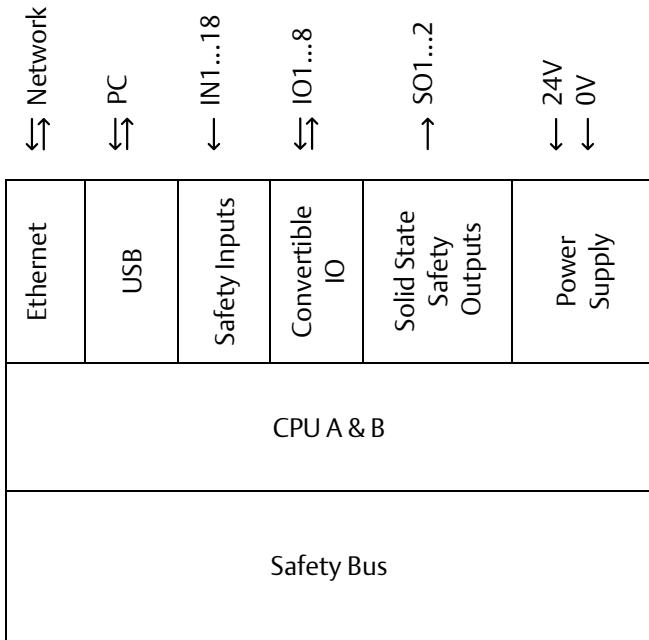

For complete technical information about this product, including installation instructions, application requirements and guidelines, technical specifications, and accessories, go to the support site links at the end of this document and search for the PACSafe Configurable Safety Controller User Manual (GFK-3184).

| Model | Descriptions |
|-------------|---|
| IC225SXE262 | Configurable Safety Controller: Expandable; 26 Input; 2 Pairs of PNP Safety Outputs (.5 Amp each); No Display; Ethernet; USB; 8 convertible Inputs; Removable Screw Terminals; 24 V dc; 140 mA; |
| IC225SXF262 | Configurable Safety Controller: Expandable; Display; 26 Input; 2 pairs of PNP Safety Outputs (.5 Amp each); Ethernet; USB; 8 Convertible Inputs; Removable Screw Terminals; 24 V dc; 160 mA; |
| IC225SSE262 | Configurable Safety Controller: Standalone; 26 Input; 2 pairs of PNP Safety Outputs (.5 Amp each); No Display; Ethernet; USB; 8 Convertible Inputs; Removable Screw Terminals; 24 V dc; 140 mA; |
| IC225SSF262 | Configurable Safety Controller: Standalone; Display; 26 Input; 2 pairs of PNP Safety Outputs (.5 Amp each); Ethernet; USB; 8 convertible Inputs; Removable Screw Terminals; 24 V dc; 160 mA; |

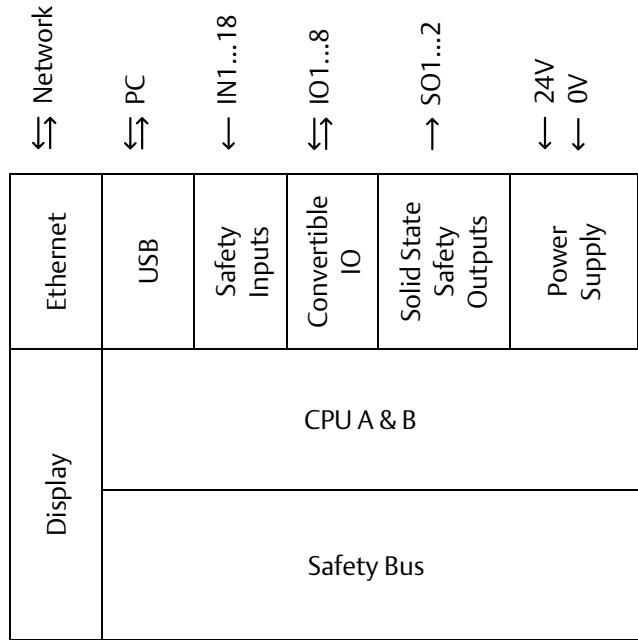

Features

- Program in minutes with intuitive, easy-to-use configuration software
- On units with Expansion, up to eight expansion I/O modules can be added as automation requirements grow or change
- Choose from six expansion module models
- Expansion module models have a variety of safety inputs, solid-state safety outputs and safety relay outputs
- Innovative live display feature and diagnostics allow for active monitoring of I/O on a PC and assist in troubleshooting and commissioning
- Safety Controller and input modules allow safety inputs to be converted to status outputs for efficient terminal use
- Ethernet-enabled models can be configured for up to 256 virtual status outputs
- Optional IC225ACC001 external drive for fast swap and quick configuration without a PC

Responsibilities of Qualified Personnel

To access the Configurable Safety Controller instruction manual (GFK-3184):

Go to Emerson's support site to download the manual

⚠ WARNING

It is the responsibility of the Qualified Personnel to:

- Carefully read, understand, and follow the information in the Configurable Safety Controller User Manual (GFK-3184);
- Perform a risk assessment of the specific machine guarding application
- Determine what risk reduction measures are appropriate per the results of the risk assessment
- Properly install, configure, and then verify that the risk reduction measures are working as intended
- Periodically re-verify, as needed, that the risk reduction measures are working as intended.

Failure to follow any of these responsibilities may potentially create a dangerous condition that could lead to serious injury or death.

Pour accéder au manuel d'utilisation Configurable Safety Controller (GFK-3184):

Rendez-vous sur le site <https://www.emerson.com/industrial-automation-controls/support> pour télécharger le manuel dans la langue de votre choix

⚠ WARNING

Il incombe au personnel qualifié de:

- Lire avec attention, bien comprendre et suivre les instructions du manuel du système Configurable Safety Controller (GFK-3184);
- Effectuer une évaluation des risques de l'application de protection spécifique à la machine
- Identifier les mesures de limitation du risque appropriées en fonction des résultats de l'étude de risques
- Installer et configurer correctement le ou les dispositifs de protection destinés à limiter le risque puis vérifier qu'ils fonctionnent de la façon prevue
- Revérifier périodiquement, s'il y a lieu, que ces dispositifs de protection fonctionnent toujours comme il se doit

Le non-respect de l'une de ces responsabilités peut potentiellement créer une condition dangereuse pouvant entraîner des blessures graves, voire mortelles.

So beziehen Sie die Bedienungsanleitung für den Configurable Safety Controller (GFK-3184):

Laden Sie die Anleitung in der gewünschten Sprache von unserer Website (<https://www.emerson.com/industrial-automation-controls/support>) herunter oder

⚠ WARNING

Es liegt in der Verantwortung des qualifizierten Personals,

- Die Informationen in der Anleitung für den Configurable Safety Controller (GFK-3184) gründlich durchzulesen, zu verstehen und zu befolgen
- Eine Risikobeurteilung der spezifischen Maschinenschutzanwendung durchzuführen
- Ermitteln, welche Maßnahmen zur Risikominderung aufgrund der Ergebnisse der Risikobeurteilung angemessen sind
- Das gesamte Schutzsystem fachgerecht installieren, konfigurieren und anschließend auf die bestimmungsgemäße - Funktion überprüfen
- Je nach Bedarf regelmäßig nachprüfen, ob die Maßnahmen zur Risikominderung wie beabsichtigt funktionieren

Die Nichtbeachtung einer dieser Verantwortlichkeiten kann zu gefährlichen Zuständen führen, die zu schweren oder tödlichen Verletzungen führen können.

Per accedere al manuale di istruzioni dello Configurable Safety Controller (GFK-3184):

Andare al sito <https://www.emerson.com/industrial-automation-controls/support> per scaricare il manuale

WARNING

È responsabilità della Personale Qualificato:

- Leggere attentamente, assicurarsi di avere compreso e seguire le indicazioni riportate nel manuale di istruzioni del Configurable Safety Controller (GFK-3184).
 - Eseguire una valutazione dei rischi dell'applicazione di protezione della macchina specifica
 - Determinare quali misure di riduzione del rischio sono appropriate in base ai risultati della valutazione del rischio
 - Installare e configurare correttamente il sistema, quindi verificare che le misure di riduzione del rischio assicurino i risultati previsti
 - Ricontrollare periodicamente, in base alla necessità, che tali misure di riduzione del rischi continuino ad assicurare i risultati previsti.
- La mancata osservanza di una qualsiasi di queste responsabilità può potenzialmente creare una condizione pericolosa che potrebbe causare lesioni gravi o mortali.**
-

Para obtener el manual de instrucciones del Configurable Safety Controller (GFK-3184)

Visite <https://www.emerson.com/industrial-automation-controls/support> para descargar el manual.

WARNING

Es responsabilidad del personal calificado:

- Leer con atención, entender y seguir la información en el manual de instrucciones de la Configurable Safety Controller (GFK-3184).
- Realizar una evaluación de riesgos que incluya la aplicación de protección de la máquina específica
- Determinar qué medidas de reducción de riesgos son apropiadas según los resultados de la evaluación de riesgos
- Instale, configure y luego verifique correctamente que las medidas de reducción de riesgos funcionan según lo previsto
- Vuelva a verificar periódicamente, según sea necesario, que las medidas de reducción de riesgos funcionan según lo previsto

El incumplimiento de cualquiera de estas responsabilidades puede crear potencialmente una condición peligrosa que podría provocar lesiones graves o la muerte.
